(a) Kunal	(b) Rohan (c) Sachin	
(d) Anuj	(e) None of these	
	the order of increasing heights	,
who will be the se	cond?	
(a) Anuj	(b) Sachin (c) Rohan	
(d) Kunal	(e) None of these	
A Who is the secon	d tallagt?	
4.Who is the secon	d tallest?	
(a) Sachin	(b) Kunal (c) Anuj	
(d) Rohan	(e) None of these	

5. Who is taller than Anuj but shorter than Mohit?

- (a) Kunal (b) Rohan (c) Sachin
- (d)Date Inadequate (e) None

Solution:

Let us denote the five boys by the first letter of their names,namely S, K, M, A and R. Then , R < S < K < M and S < A < K

Answer for 1st question is (a), Rohan is shortest.

Answer for 2nd question is (d), Anuj is in the middle.

Answer for 3rd question is (b), In the order of increasing heights i,e shortest to tallest, Sachin is second.

Answer for 4th question is (b). Kunal is second tallest.

Answer for 5th question is (a), Kunal is taller than Anuj but shorter than Mohit.

Read the information given below and answer the questions that follow:

- (1) There is a group of five girls.
- (2) Kamini is second in height but younger than Rupa.
- (3)Pooja is taller than Monika but younger in age.
- (4)Rupa and Monika are of the same age but Rupa is tallest between them.

(5)Neelam is taller than Pooja and elder to Rupa.
6. If they are arranged in the ascending order of heights, who will be in the third position?
(a) Monika (b) Rupa (c) Monika or Rupa (d) Date Inadequate (e) None of these
7. If they are arranged in a the descending order of their
ages, who will be in the fourth position?
(a) Monika or Rupa (b) Kamini or Monika c) Pooja
(d)Data Inadequate (e) None of these
8.To answer the question "who is the youngest person in the
group", which of the given statements is superfluous?
(a) Only (1) (b) Only (2) (c) Only (5)
(d) either (1) or (4) (e) None
Solution: We first find the sequence of heights
by (3) we have $:M < P$
by (5) we have : $P < N$
Now, Rupa is tallest and kamini is second in height.
So the sequence of heights is : $M < P < N < K < R$.
Now, we determine the age sequence

```
by (2) we have : K < R.
```

- by (3) we have : P < M.
- by (4) we have : R = M.
- by (5) we have : R < N.

So the sequence of ages is:N < R = M < K < P or N < R = M < P < K. Answer for 6th question is (e),in the increasing order of heights, Neelam is in third position.

Answer for 7th question is (e), in the descending order of ages,

Neelam will be in fourth position (because Monika and Rupa both

lie at third position).

Answer for 8th question is (a), Only statement (1) is not necessary.

EXERCISE

Answer is (a), Clearly, we have : A < X, Y = B, Z < C, Z < B, Y < A thus the sequence becomes X > A > Y = B > C > Z.

So, X is the best knowledgeable person.

2.Five children were administrated psychological tests to know their intellectual levels. In the report, psychologists pointed out that the child A is less intelligent than the child B. The child C is less intelligent than the child D. The child B is less intelligent than the child C and child A is more intelligent than child E. Which child is most intelligent?

- (a) A (b) B (c) D
- (d) E (e) None of these

Answer is (c), we have A < B, C < D, B < C and E < A.

So, the sequence becomes: E < A < B < C < D.

Clearly, child D is most intelligent.

3.In an examination, Raj got more marks than Mukesh but not as many as Priya.Priya got more marks than Dinesh and Kamal. Dinesh got less marks than Mukesh but his marks are not the lowest in the group. Who is the second in the descending order of marks?

(a) Priya	(b) Kamal		(c) Raj	
(d) Cannot be	determine	(e) None	of these	
Answer is (c)				
In terms of ma	rks obtained			
Mukesh < Raj, I Mukesh.	Raj < Priya, Di	nesh < Pı	riya, Kamal	< Priya, Dinesh <
Since Dinesh malowest.	ars are not the	lowest,	so Kamal's	marks are the
So, the sequen	ce becomes: Kam	al < Dine	esh < Mukesh	n < Raj < Priya.
Clearly, in the	e descending or	der, Raj	comes secon	nd.
Read the follow	wing informatio	n careful	lly and ansv	ver the questions
given below it	:			
(A)Gopal is sho	orter than Asho	k but tal	ller than Kı	unal.
(B)Navin is sho	orter than Kuna	1.		
(C)Jayesh is ta	aller than Navi	n.		
(D)Ashok is ta	ller than Jayes	h.		
4.Who among the	em is the talle	st?		
(a) Gopal	(b) Ashok		(c) Kunal	
(d) Navin	(e) Jayes	h		
5.Whisch of the	e given informa	tion is n	not necessar	ry to answer the
above question	?			
(a) A (1	b) B	(c) C	(c	d) D

(e) None of these

Solution for 4th and 5th questions.

In terms of height we have : Gopal < Ashok, Kunal < Gopal, Navin < Kunal,

Navin < Jayesh, Jayesh < Ashok.

So, the sequence becomes: Navin < Kunal < Gopal < Jayesh < Ashok.

Answer for 4th question is (b), Clearly, Ashok is tallest.

Answer for 5th question is (c), Clearly, statement C is not necessary.

6.B is twice as old as A but twice younger than F.

C is half the age of A but twice the age of D.

Which two persons from the pair of oldest and youngest?

- (a) F and A
- (b) F and D
- (c) B and F

- (d) F and C (e) None of these

Answer is (b)

Let's A's age be x, then B's age is 2x. B is twice younger than F i,e

is twice older than B. So, F's age is 4x. C is half the age of A i,e C's

age is x/2. C is twice the age of D i,e D is half the age of C i,e D's

age is x/4. So, the descending order of ages is F, B, A, C, D.

Clearly, F is the oldest and is the youngest.

Directions (questions 7 to 11) Read the following information and answer the questions given below it: (1) Seven students P, Q, R, S, T, U and v take a series of tests. (2) No two students get similar marks. (3)V always scores more than P. (4)P always scores more than Q. (5) Each time either R scores the highest and t gets the least or alternatively S scores the highest and U or Q scores the least. 7.If S is ranked sixth and Q is ranked fifth, which of the following can be true? (a) V is ranked first or fourth (b) R is ranked second or (c)Pis ranked second or fifth (d) U is ranked third or fourth (e) T is ranked fourth or fifth. 8. If R gets more, V should be ranked not lower than: (a) second (b) third (c) fourth (d) fifth (e) sixth 9.If R is ranked second and Q is ranked fifth, which of the following must be true? (a) S is ranked third (b) T is ranked sixth (c) P is ranked sixth (d)V is ranked fourth (e) U is ranked sixth

10. If S is ranked second, which of the following can be true?

- (a) U gets more than V
- (b) V gets more than S
- (c) P gets more than R
- (d)P gets more than V
- (e) T gets more than Q

11. If V is ranked fifth, which of the following must be true?

- (a) S scores the highest
- (b)R is ranked second
- (c) T is ranked third
- (d)Q is ranked fourth
- (e) U scores the least

Solution for 7th to 11th:

In terms of scores we have :

$$V > P$$
, $P > Q$ i,e $V > P > Q$.

If R scores the highest, we have R > -----> T.

If S scores the highest, we have S > -----> Q

Answer for 7th question is (d), If S is ranked sixth and Q is ranked fifth, we have

In this case, R will ran the highest and thus T will rank the least. we have

$$R > _ > _ > _ > Q > S > T$$

Also, the order V > P > Q will be maintained i,e V and P will have second,

third or fourth places. So, statements (a), (b), (c), (e) cannot follow. Thus (d) is the answer.

Answer for 8th question is (c), Again, if R ranks most, T ranks lowest

and occupies seventh place. Since V always ranks above P and Q so in the maximum, P and Q will occupy fifth and sixth places. Thus, V will not rank lower than fourth.

Answer for 9th question is (b), If R is ranked second, S will rank first

and ${\tt Q}$ and ${\tt U}$ lowest. But ${\tt Q}$ ranks fifth. So, ${\tt U}$ ranks lowest. Also, the order

V > P > Q will be followed.

So, the arrangement will be S > R > V > P > Q > $_$ U.Thus , the sixth place

will be occupied by T.

Answer for 10th question is (a), If S ranks second, R ranks first and $\ensuremath{^{\mathrm{T}}}$

ranks lowest. The order V > P > Q will be followed. So, the arrangement

will be $R > S > _ > _ > _ > _ > T$.

Clearly, statements (b), (c), (d) and (e) cannot follow. so the answer is

(a).

Answer for 11th question is (a), If $\mbox{\sc V}$ ranks fifth, $\mbox{\sc P}$ and $\mbox{\sc Q}$ coming before it

will occupy sixth and seventh places respectively i,e \mbox{Q} ranks least. So,

S will score the highest.

Directions (questions 12 to 16): Read the following information carefully and answer the questions given below : (1)A, B, C, D and E are five friends. (2)B is elder to E, but not as tall as C. (3)C is younger to A, and is taller to D and E. (4)A is taller to D, But younger to E. (5)D is elder to A but is shorter in the group. 12. Who among the following is the eldest? (a) A (b) B (c) C (d) D (e) None of these 13. Which of the following pairs of students is elder to D? (b) BC (a) BA (c) BE (d) EA (e) None of these 14. Which of the following statements is correct about B? (1)B is not the tallest (2) B is shorter to E(3) When they are asked to stand in ascending order with respect to their heights, B is in the middle. (a) Only (1) is correct (b) Only (1) and (3) are correct (c)All are correct (d) All are incorrect (e) None of these

15. If F, another friend is taller than C, how many of them will be

between F and E according to their height?

(a) None (b) One (c) Two

(d) Three (e) None of these

16. If a selection is to be made among them who would be relatively older and also taller, who among them should be chosen?

e) E

Solutions for 12th to 16th:

In terms of age we have:

$$E < B$$
, $C < A$, $A < E$, $A < D$

So, we have C < A < E < B, A < D.

In terms of height we have

Answer for 12th question is (e): Either B or D is the eldest.

Answer for 13th question is (e) : It cannot be determined for sure.

Answer for 14th question is (a): B is shorter than C, so B is not the tallest.

Thus (1) is correct. B and E are shorter than C. So, it cannot be concluded that B is shorter to E. Thus (2) is incorrect.

A single definite order of heights cannot be obtained from the

given information. So (3) is incorrect.

Answer for 15th question is (e) :Since no definite order of height can be obtained.So it cannot be determined for sure how many persons

lie between F and E.

Answer for 16th question is (b) :A and C are youngest so they cannot be selected.

D is shorter than two persons A and C.

B is shorter than C only and is only relatively order. So, B will be selected.

E is younger than B.

Directions (questions 17 to 20): Read the following information given below and answer the questions that follow:

- A * B means A and B are the same age.
- A B means B is younger than A.
- A + B means A is younger than B.
- 17. Sachin * Madan Reena means
- (a) Reena is youngest (b) Reena is the oldest
- (c) Madan is younger than Reena
- (d)None of these
- 18.X+Y+Z is same as

- (a) Y-X-Z (b) Z-Y-X (c) Z-X-Y
- (d) None of these
- 19. For an expression Farha-Fardina-Arif which of the following cannot

be correct under any circumstances?

- (a) Arif is father of Farha.
- (b) Arif is the younger brother of Farha.
- (c) Farha is the mother of both Arif and Fardina.
- (d)None of these
- 20.Deven-Shashi*Hemant is opposite to
- (1) Hemant+Shashi+Deven (2) Hemant-Shashi+Deven
- (3)Shashi*Hemant+Deven
- (a) (1) only (b) (1) an (2) only (c) (2) and (3) only
- (d) None of these

Solution for 17th to 20th :

Answer fro 17th question is (a): Sachin*Madan-Reena means Sachin and Madan are of the same age and Reena is younger than Madan.

This means that Reena is the youngest.

Answer for 18th question is (b) : X+Y+Z means X is younger than Y and Y is younger than Z. This can also be written as Z-Y-X.

Answer for 19th question is (a): Farha-Fardina-Arif means Fardina is younger than Farha and Arif is younger than Fardina. This means that Arif is younger than Farha. So, Arif cannot be the father of Farha.

Answer for 20th question is (d): Deven-Shashi*Hemant means Shashi is younger than Deven ans Shashi and Hemant are of the same age.

Thus Deven is the oldest.

Now, the opposite statements would mean : Deven is the youngest.

- (1)Hemant+Shashi+Deven means Hemant is younger than Shashi, who is younger than Deven.So, Deven is the oldest.
- (2)Hemant-Shashi+Deven means Shashi is younger than both Hemant and Deven. Thus eother Hemant or Deven is the oldest, but Deven is not the youngest.
- (3)Shashi*Hemant+Deven means Shashi and Hemant are of the same age and Hemant is younger than Deven. So, Deven is the oldest.

PROBLEMS ON SEATING ARRANGEMENT

SEATING ARRANGEMENTS

In this type of questions, some clues regarding seating or placing (linear/ circular) of some persons or items is given.

The candidate is required to form the paper sequence using these clues and answer the questions accordingly.

1) Read the following information carefully and answer the questions given below:

Six persons A,B,C,D,E and F are sitting in two rows, three in each. E is not at the end of any row Dis second to the left of F. C the neighbour of E, is sitting diagonally opposite to D. B is the neighbour of F 1. Which of the following are sitting diagonally opposite to each (a) F and C (b) D and A (c) A and C (d) A and F (e) A and B 2.Who is facing B? (a) A (b) C (c) D (d) E (e) F 3. Which of the following are in same row? (a)A and E (b) E and D (c) C and B (d) A and B (e) C and E 4. Which of the following are in one of the two rows? (a) FBC (b) CEB (c) DBF (d) AEF (e) ABF 5.After interchanging seat with E, who will be the neighbours of D in the new position?

(a) C and A (b) F and B (c) only B (d) only A (e) only C

Solution :

The given information can be analysed as follows:

E is not at end so, E must be in the middle of one of the rows.

D is second to the left of F so, order of rows must be D_F.

C is neighbour of E and is sitting diagonally opposite to D means

B is neighbour of F, s the arrangement must be D B F A E C.

C is under F in the other row i,e D _ F _ E C.

- 1.0ther than D and C, A and F are sitting diagonally opposite to each other, as seen in the arrangement. So the answer is (d).
- 2.Clearly, E is opposite to B in the other row . So ,E is facing B and the answer is (d).
- 3.Clearly, from amongst the given alternatives, A and E are in the same $% \left(1\right) =\left(1\right) +\left(1\right) +\left($

row .So the answer is (d).

- 4.Clearly, from amongst the given alternatives, D,B and F are in the same row.So, the answer is (c).
- 5.Clearly, neighbours of E are A and C. So, on interchanging the seat with E, the new neighbours of D will be A and C. So the answer is (a).

2) Eight books are kept one over the other counting from the top the second,

fifth and sixth books are on plays. Two books on plays are between two

books on composition. One book of plays is between two books on poetry.

While the book at the top of the book of literature is a book of composition .Which book is fourth from the top?

(a) plays (b) poetry (c) composition (d)literature

Solution :

We analyse the given information as follows:

Let C denote 'composition' , P denote 'plays' , Po denote 'poetry' and

L denote 'literature'.

1 2 3 4 5 6 7 8

- P - - P P -
- C P P C
PO P PO - -
C L

So the arrangement becomes:

1 2 3 4 5 6 7 8

Po P Po C P P C L

Clearly the fourth book from the top is on composition. So the answer is (c).

- 3)Read the following information and answer the questions that follows.
- (1)Six friends A, B, C, D, E and F are sitting in a closed circle facing $% \left(1\right) =\left(1\right) \left(1\right) +\left(1\right) \left(1\right) \left(1\right) +\left(1\right) \left(1\right)$

the center.

- (2)E is to the left of D.
- (3)C is between A and B.
- (4)F is between E and A.
- 1. Who is to the left of B?
- (a) A (b) C (c) D (d) E (e) none of these
- 2.Who is to the right of C?
- (a) A (b) B (c) D (d) E (e)F

- 3. Which of the above given statements is superfluous? (a) 1 (b) 2 (c) 3 (d) 4 (e) none of these Solution : Clearly, in the circle this arrangement is as shown D В \mathbf{E} С 1.Clearly , D is the left of B. so the answer is (c). 2.Clearly ,A is to the right of C. so the answer is (a). 3. Since all the statements are necessary to determine the arrangement none of them is superfluous. so the answer is (e).
- 1. Four girls are sitting on a bench to be photographed. Shikha is to the left of Reena.

EXERCISE

Manju is to the right of Reena. Rita is between Reena and Manju.

Who would be second from the left in the photograph?

(a) Reena (b) Shikha (c) Manju (d) Rita Answer is (d) Shikha is to the left of Reena and Manju is to her right. Rita is between Reena and Manju. So the order is Shikha, Reena , Rita and Manju. In the photograph Rita will be second from left. 2. There are five different houses, A to E in a row. A is to the right of B and E is to the left of C and right of A. B is to the right of Which of the houses is in the middle? (a) A (b) B (c) D (d) E Answer is (a) B is to the right of D. A is to the right of B. E is to the right of and left of C.So the order is D, B, A, E, C . Clearly A is in the middle. 3.In a march past , seven persons are standing in a row. Q is standing left to R but right to P. O is standing right to N and left to P. Similarly , S is standing right to R and left to T. Find out who is

standing in middle?

(a) P (b) Q (c) R (d) O

Answer is (b)

Q is left to R and to the right of P i,e $\,$ P, Q, R.

O is to the right of N and left of P i,e N, O, P.

S is to the right of R and left of T i,e R, S, T.

Clearly , Q is in the middle.

4. Five children are sitting in a row. S is sitting next to P but not T. is sitting next to R who is sitting on extreme left and T is not sitting next to K. Who are sitting adjacent to S?

(a) K and P (b) R and P (c) only C (d) P and T (e)Insufficient Information

Answer is (d)

S is sitting next to P. So, the order S, P or P, S is followed. is sitting next to R.So, the order R, K is followed because R is on the extreme

left. T is not next to P or K.

So, the arrangement will be R, K, P, S, T.

Clearly, P and T are sitting adjacent to S.

5. Five girls are sitting in a row , Rashi is not adjacent to Sulekha or Abha. Anuradha is not adjacent to Sulekha. Rashi is adjacent to Monika. Monika is at the middle in the row. Then, Anuradha is adjacent to whom out of the following ? (a) Rashi (b) Sulekha (c) Abha (d) Monika (e) Cannot be determined Answer is (a) Clearly, the order is Anuradha, Rashi, Monika, Abha. Anuradha is adjacent to Rashi Read the following information carefully and answer the questions given below it: (A) There are five friends (B) They are standing in a row facing south. (C) Jayesh is to the immediate right to Alok. (D)Pramod is between Bhagat and Subodh. (E) Subodh is between Jayesh and Pramod.

6.Who is at	the extreme	e left end?

(e) None of	these			
7.Who is in	the middle?	?		
(a) Bhagat	(b) Jayesh	n (c) Pramod	(d) Subodh	(e)Alok
Solution:				
The boys are accordingly.		Eacing south. S	o, consider le	eft and right
Jayesh is to	the right	of Alok i,e J	ayesh, Alok.	
Pramod is be	etween Bhaga	at and Subodh i	,e Bhagat, Pra	amod, Subodh
Subodh is be	etween Jayes	sh and Pramod.		
So, the sequ	ence is			
Alok	Bhagat	Pramod	Subodh	Jayesh
Answer for 6	oth question	n is (a), Alok	is at extreme	left end.
Answer for 7	th question	n is (d), Subod	h is in the m	iddle.

the immediate	left of B?				

Answer is (b)

Clearly, in a circle the arrangement is as shown:

C F B E

So, C is to the immediate left of B.

A, B, C, D, E and F are seated in a circle facing the center. C is between F and B.

A is second to the left of D and second to the right of ${\tt E.}$

17. Who is facing A?

Solution: Solution for 17th and 18th questions is

The circular arrangement is as shown

C E F B

Answer for 17th question is (a), Clearly B is facing A.

Answer for 18th question is (b), C is facing D.

Eight friends A, B, C, D, E, F, G and H are sitting in circle facing the center.

B is sitting between G and D. H is third to the left of B and second to the right of A.

 ${\tt C}$ is sitting between A and G and B and E are not sitting opposite to each other.

19. Who is third to the left of D?

- (b) A is sitting between C and F.
- (c)D and A are sitting opposite to each other.
- (d)E is sitting between F and D.
- (e) E and C are sitting opposite to each other

Solution: Solution for 19th and 20th question is

B is between G and D i,e the order is G B D. H is third to the left of B and second to the right of A. So, forming a circle we have:

H A
G D

 ${\tt C}$ is between A and G. But E is not opposite B. So, C is between A and H.

5. Who is taller than Anuj but shorter than Mohit? (a) Kunal (b) Rohan (c) Sachin (d) Date Inadequate (e) None Solution: Let us denote the five boys by the first letter of their names, S, K, M, A and R.Then , R < S < K < M and S < A < K R < S < A < K < MAnswer for 1st question is (a), Rohan is shortest. Answer for 2nd question is (d), Anuj is in the middle. Answer for 3rd question is (b), In the order of increasing heights i,e shortest to tallest, Sachin is second. Answer for 4th question is (b). Kunal is second tallest. Answer for 5th question is (a), Kunal is taller than Anuj but shorter than Mohit. Read the information given below and answer the questions that follow: (1) There is a group of five girls. (2) Kamini is second in height but younger than Rupa. (3)Pooja is taller than Monika but younger in age. (4)Rupa and Monika are of the same age but Rupa is tallest between them. (5) Neelam is taller than Pooja and elder to Rupa. 6.If they are arranged in the ascending order of heights, who will in the third position? (a) Monika(b) Rupa (c) Monika or Rupa (d) Date Inadequate (e) None of these 7.If they are arranged in a the descending order of their ages, who will be in the fourth position? (a) Monika or Rupa (b) Kamini or Monika (b) Pooja (d)Data Inadequate (e) None of these 8.To answer the question "who is the youngest person in the group", which of the given statements is superfluous? (a) Only (1)(b) Only (2) (c) Only (5) (d) either (1) or (4)(e) None We first find the sequence of heights Solution : by (3) we have :M < Pby (5) we have : P < NNow, Rupa is tallest and kamini is second in height. So the sequence of heights is : M < P < N < K < R. Now, we determine the age sequence by (2) we have : K < R. by (3) we have : P < M. by (4) we have : R = M. by (5) we have : R < N. So the sequence of ages is : N < R = M < K < P or N < R = M < P <

Neelam is in third position.

Answer for 7th question is (e), in the descending order of ages,

Neelam will be in fourth position (because Monika and Rupa both lie at third position).

Answer for 2th question is (a) Only statement (1) is not recognize.

Answer for 6th question is (e), in the increasing order of heights,

Answer for 8th question is (a), Only statement (1) is not necessary.

EXERCISE

- 1.Compare the knowledge of persons X, Y, Z, A, B and C in relation to each other.
- 1.X knows more than A.
- 2.Y knows as much as B.
- 3.Z knows less than C.
- 4.A nows more than Y.

The best knowledge person amongst all is:

- (a) X (b) Y (c) A (d) C
- Answer is (a), Clearly, we have : A < X, Y = B, Z < C, Z < B, Y < A thus the sequence becomes X > A > Y = B > C > Z.
- So, X is the best knowledgeable person.
- 2. Five children were administrated psychological tests to know their intellectual levels. In the report, psychologists pointed out that the child A is less

intelligent than the child ${\tt B.}$ The child ${\tt C}$ is less intelligent than the

child D. The child B is less intelligent than the child C and child A is more

intelligent than child E. Which child is most intelligent?

- (a) A (b) B (c) D (d) E (e) None of these
- Answer is (c), we have A < B, C < D, B < C and E < A.

So, the sequence becomes: E < A < B < C < D.

Clearly, child D is most intelligent.

3.In an examination, Raj got more marks than Mukesh but not as many as Priya.

Priya got more marks than Dinesh and Kamal. Dinesh got less marks than Mukesh

but his marks are not the lowest in the group. Who is the second in the descending $% \left(1\right) =\left(1\right) +\left(1\right)$

order of marks?

- (a) Priya (b) Kamal (c) Raj (d) Cannot be determine
- (e) None of these

Answer is (c)

In terms of marks obtained

Mukesh < Raj, Raj < Priya, Dinesh < Priya, Kamal < Priya, Dinesh < Mukesh.

Since Dinesh mars are not the lowest, so Kamal's marks are the lowest.

So, the sequence becomes: Kamal < Dinesh < Mukesh < Raj < Priya.

Clearly, in the descending order, Raj comes second.

Read the following information carefully and answer the questions given below it:

- (A)Gopal is shorter than Ashok but taller than Kunal.
- (B) Navin is shorter than Kunal.
- (C) Jayesh is taller than Navin.
- (D)Ashok is taller than Jayesh.
- 4. Who among them is the tallest?
- (a) Gopal (b) Ashok (c) Kunal (d) Navin (e) Jayesh
- 5. Whisch of the given information is not necessary to answer the above question?
- (a) A(b) B (c) C (d) D (e) None of these

Solution for 4th and 5th questions.

In terms of height we have : Gopal < Ashok, Kunal < Gopal, Navin < Kunal,

Navin < Jayesh, Jayesh < Ashok.

So, the sequence becomes: Navin < Kunal < Gopal < Jayesh < Ashok.

Answer for 4th question is (b), Clearly, Ashok is tallest.

Answer for 5th question is (c), Clearly, statement C is not necessary.

6.B is twice as old as A but twice younger than F.

C is half the age of A but twice the age of D.

Which two persons from the pair of oldest and youngest?

(a) F and A (b) F and D (c) B and F (d) F and C (e) None of these

Answer is (b)

Let's A's age be x, then B's age is 2x. B is twice younger than F i,e F is

twice older than B. So, F's age is 4x. C is half the age of A i,e C's age is x/2. C is twice the age of D i,e D is half the age of C i,e D's age

is x/4. So, the descending order of ages is F, B, A, C, D.

Clearly, F is the oldest and is the youngest.

Directions (questions 7 to 11) Read the following information and answer the $\,$

questions given below it:

- (1) Seven students P, Q, R, S, T, U and v take a series of tests.
- (2) No two students get similar marks.
- (3)V always scores more than P.
- (4)P always scores more than Q.
- (5)Each time either R scores the highest and t gets the least or alternatively
- S scores the highest and U or Q scores the least.
- 7.If S is ranked sixth and Q is ranked fifth, which of the following can be true?
- (a) V is ranked first or fourth (b) R is ranked second or third
- (c)Pis ranked second or fifth (d) U is ranked third or fourth
- (e) T is ranked fourth or fifth.
- 8. If R gets more, V should be ranked not lower than:
- (a) second (b) third (c) fourth (d) fifth (e) sixth
- 9. If R is ranked second and Q is ranked fifth, which of the following must be true?
- (a) S is ranked third (b) T is ranked sixth (c) P is ranked sixth
- (d)V is ranked fourth (e) U is ranked sixth
- 10.If S is ranked second, which of the following can be true?

- (a) U gets more than V $\,$ (b) V gets more than S (c) P gets more than R (d)P gets more than V $\,$ (e) T gets more than Q
- 11.If V is ranked fifth, which of the following must be true?
- (a) S scores the highest (b)R is ranked second (c) T is ranked third
- (d)Q is ranked fourth (e) U scores the least

Solution for 7th to 11th:

In terms of scores we have :

V > P, P > O i, e V > P > O.

If R scores the highest, we have R > -----> T.

If S scores the highest, we have S > ----- > Q or S > ----- > U.

Answer for 7th question is (d), If S is ranked sixth and Q is ranked fifth, we have

_ > _ > _ > Q > S > _

In this case, R will ran the highest and thus T will rank the least. we have

R > _ > _ > Q > S > T

Also, the order V > P > Q will be maintained i,e V and P will have second, third or

fourth places. So, statements (a), (b), (c), (e) cannot follow. Thus (d) is the answer.

Answer for 8th question is (c), Again, if R ranks most, T ranks lowest and occupies

seventh place. Since V always ranks above P and Q so in the maximum, P and Q will

occupy fifth and sixth places. Thus, V will not rank lower than fourth.

Answer for 9th question is (b), If R is ranked second, S will rank first and

Q and U lowest. But Q ranks fifth. So, U ranks lowest. Also, the order V > P > Q will be followed.

So, the arrangement will be S > R > V > P > Q > _ U. Thus , the sixth place

will be occupied by T.

Answer for 10th question is (a), If S ranks second, R ranks first and T ranks $\left(\frac{1}{2} \right)$

```
lowest. The order V > P > Q will be followed. So, the arrangement
will
be R > S > \_ > \_ > \_ > T.
Clearly, statements (b), (c), (d) and (e) cannot follow. so the
answer is (a).
Answer for 11th question is (a), If V ranks fifth, P and Q coming
before it will
   occupy sixth and seventh places respectively i,e Q ranks least.
   So, S will score the highest.
Directions ( questions 12 to 16 ): Read the following information
carefully
and answer the questions given below :
(1)A, B, C, D and E are five friends.
(2)B is elder to E, but not as tall as C.
(3)C is younger to A, and is taller to D and E.
(4)A is taller to D, But younger to E.
(5)D is elder to A but is shorter in the group.
12. Who among the following is the eldest?
(a) A(b) B (c) C
                     (d) D
                              (e) None of these
13. Which of the following pairs of students is elder to D?
         (b) BC (c) BE
                              (d) EA
                                       (e) None of these
14. Which of the following statements is correct about B?
(1)B is not the tallest (2) B is shorter to E
(3) When they are asked to stand in ascending order with respect to
their
heights, B is in the middle
(a) Only (1) is correct
  (b) Only (1) and (3) are correct
(c)All are correct
   (d) All are incorrect
  (e) None of these
15. If F, another friend is taller than C, how many of them will be
between F
and E according to their height?
               (b) One(c) Two (d) Three (e) None of these
(a) None
16. If a selection is to be made among them who would be relatively
older and
also taller, who among them should be chosen?
(a) A (b) B (c) C (d) D (e) E
Solutions for 12th to 16th:
     In terms of age we have:
  E < B, C < A, A < E, A < D
    So, we have C < A < E < B, A < D.
    In terms of height we have
  B < C, D < C, E < C, D < A.
```

```
Either B or D is the eldest.
Answer for 13th question is (e):
It cannot be determined for sure.
Answer for 14th question is (a):
B is shorter than C, so B is not the tallest.
Thus (1) is correct. B and E are shorter than C. So, it cannot be
concluded that B
is shorter to E. Thus (2) is incorrect. A single definite order of
heights
cannot be obtained from the given information. So (3) is incorrect.
Answer for 15th question is (e):
Since no definite order of height can be obtained.
So it cannot be determined for sure how many persons lie between F
and E.
Answer for 16th question is (b):
A and C are youngest so they cannot be selected.
D is shorter than two persons A and C.
B is shorter than C only and is only relatively order. So, B will be
selected.
E is younger than B.
Directions ( questions 17 to 20 ): Read the following information
given below
and answer the questions that follow:A * B means A and B are the same
age.
A - B means B is younger than A.
A + B means A is younger than B.

(3)Shashi*Hemant+Deven
(a) (1) only (b) (1) an (2) only (c) (2) and (3) only
(d) None of these
Solution for 17th to 20th :
Answer fro 17th question is (a):
Sachin*Madan-Reena means Sachin and Madan are of the same age and
Reena
is younger than Madan. This means that Reena is the youngest.
```

Answer for 12th question is (e):

Answer for 18th question is (b) : X+Y+Z means X is younger than Y and Y

is younger than ${\tt Z}.$ This can also be written as ${\tt Z-Y-X}.$

Answer for 19th question is (a): Farha-Fardina-Arif means Fardina is younger than

Farha and Arif is younger than Fardina. This means that Arif is younger than Farha.

So, Arif cannot be the father of Farha.

Answer for 20th question is (d): Deven-Shashi*Hemant means Shashi is younger than

Deven ans Shashi and Hemant are of the same age. Thus Deven is the oldest. Now, the

opposite statements would mean : Deven is the youngest.

(1)Hemant+Shashi+Deven means Hemant is younger than Shashi, who is younger than Deven.

So, Deven is the oldest.

(2)Hemant-Shashi+Deven means Shashi is younger than both Hemant and Deven.

Thus eother Hemant or Deven is the oldest, but Deven is not the youngest.

(3)Shashi*Hemant+Deven means Shashi and Hemant are of the same age and Hemant is

younger than Deven. So, Deven is the oldest.

COMPREHENSION

COMPREHENSION

The word 'comprehend 'means' to understand. You are required to go through a passage, grasp its gist, and then answer the questions based on it. It involves the use of your vocabulary, the ability to locate meanings, your intelligence to assess the real spirit of the passage and infer conclusions from the given content.

Answers must be based on and confirmed by the information given in the passage and not by any outside source.

The words information, elimination ,and inference may be used as the main keys.

IEI FORMULA:

INFORMATION:

Every passage offers you some information. Some questions are straight forward and they may be answered from the information within the passage itself. The information in the passage may

ELIMINATION:

Elimination is saying no to alternatives onjustifiable grounds until you have a positive answer. Usually, questions of the 'true' or 'false' category can be answered by this process of elimination.

INFERENCE :

The word 'inference' means to arrive at a logical conclusion.

Some questions which can't be answered by information or elimination require the process of inference. Inference may be either simple or complex

By IEI Formula:

Passage 1:

Work expands so as to fill the time available for its completion.

The general recognition of this fact is shown in the proverbial phrase,' It is the busiest man who has time to spare'. Thus, an elderly lady at leisure can spend the entire day writing a postcard to her niece. An hour will be spent in writing a postcard, another hunting for spectacles, half an hour to search for the address, an hourand a quarter in compositionand twenty minutes in deciding whether or not to take an umbrella when going to the pillar box in the street. The total effort that could occupy a busy manfor three minutes,

all told may in this fashion leave another person completely exhausted after a day of doubt ,anxiety and toil.

- 1. What happens when the time to be spent on some work increases?
- a) the work is done smoothly.
- b) the work is done leisurely.
- c) work consumes all the time.
- d) The work needs additional time.

Here the method of elimination and inference applies. A and D are eliminated at the first reading. The description that the lady who has enough leisure time takes the entire day in writing the postcard

gives us the clue that the correct answer is 'c'. 2. Explain the sentence : work expands so as to fill the time available for its completion'. a) The more work there is to be done , the more time needed. b) whatever time is available for a given amount of work, all of it will be used. c) If you have more time you can do some work. d) If you have some important work to do , you should always have some additional time. The answer here is b). This can be found out through simple inference. A statement is made right in the beginning of the passage and the story of the lady illustrates the fact that whatever time is available for work people tend to use all of it. 3. Who is the person likely to take more time to do work.:

a) a busy man.

b) a man of leisure.
c) an elderly person.
d)an exhausted person.
Here the answer is b). It requires inference from the facts given in the
passage that more the time you have , the more you will need. Therefore,
the answer is arrived at through complex inference.
4. What is the total time spent by the elderly lady in writing a
postcard?
a) Three minutes.
b) four hours and five minutes.
c) half day
d)the entire day.
The answer is d).and it is based on the information given in the
passage.

- 5. What does the expression 'pillar box' stand for?
- a) a box attached to the pillar.
- b) a box in the pillar
- c) box office.
- d) a pillar type postbox.

The answer is d). It can be derived through implied information. The lady has to go to the pillar box to drop her letter.

Now a one line passage or very short passages comprising only two or three sentences are set. Normally in a short passage there is a basicidea and all points are given to illustrate or analyze or prove the centralidea. The answer must confirm to the central idea. The accessory or secondary points may be true

but they have a partial identity only and thus they cannot

be the correct answers.

Passage 2:

Accidents on roads can be prevented, provided the quality of

roads is improved and the drivers are instructed in safety rules which they must follow for their own protection. It is also necessary that the illumination on the roads is adequate so as to prevent accidents at night.

- 1. This paragraph best supports the statement that-
- a) Road accidents are solely due to improper illumination.
- b) Road accidents result in large number of deaths.
- c) Road accidents are man made and are always avoidable.
- d) Safety rules are not taught properly to all drivers.

The answer for this is 'c', which is the central idea in the given passage.

There is still another variation in which the passage is short, comprising one or two sentences, but the questions are so many. On the basis of Information Elimination Inference formula answers can be located.

Passage 3:

The surprisingly abundant life of the Indian Ocean is confined to the upper layers; the deeper and especially the bottom waters are devoid of oxygen and are often permeated with hydrogen sulphide.

- 1. The sentence gives the information about

To those who do listen, the desert speaks of things with an emphasis quite different from that of the shore, the mountain, the valley or the plains, whereas these invite action and suggest limitless opportunity and exhaust less resources, the implications and the

mood of the desert are something different. For one thing , the desert is conservative not radical. It is more likely to provide awe than to invite conquest. The heroism which it encourages is the heroism of endurance, not that of conquest. It brings man up against this limitation, turns him upon himself and suggests values which more indulgent regions suppress. Sometimes it includes contemplation in men who have never contemplated before:

And of all the answers to the question- what is a desert good for - 'contemplation' is perhaps the best.

Explanation:

If it took Roman regions three years to seize Masada , we can

predictthat they spent a long time "surrounding or isolating"

the mountain fortress or strong hold of Masada before they were

finally able to take it [c] is the best choice. [b] assailed ,

meaning "attacked" would make sense. And [e] strong hold and [a]

don't make sense when plugged in.

struggles harmed or crippled the government although [c] 's

first blank distortions , like difference or conflicts ,[a] ,

[e] make more sense .we can easily imagine "deep ideological

Anothergroup think something else though ,so they must feel its either an oldenidea. A quick check through the answer choices for the second blank leadsus to choice [b] ancient. While one is circumspect ,or cautious ,the other word is brash or the opposite of cautious. For this second blank ,you should predict something that means the opposite of quiet , something that's sort of synonyms with brash. - e) tottering upbraided

Explanation :

Napoleon's army was hightailing it out of Moscow . The retreat "quickly turned into a rout " ,a state of wild confusion ,a disastrousdefeat. Why did it turn into an even bigger defeat? Probably because the French were doing well traveling through snow ,it's unlikely they would end up being such big losers . Then something was done to them by Russian troops. Well if you know that Napoleon's army was routedby the opposing side ,then it seems that we want a second blank word that means something like "clobbered"choices [a],[d] come close to that prediction.

Ravage means to violently destroy. Now, going back to the first blank, we know we want something that implies the troops were starch or struggling in the snow. Only choice is [d] fits both blanks. The retreat of Napoleon's army turned into a routas

French troop already floundering in the snow, were assaulted by Russian soldiers. To flounder is to struggle awkward and stumble about. A quicksurvey of the answer choices leads us to choice [c], because sumptuousmeans costlyor latish, particularly with regard to furnishings and decor. While you mighthave been tempted to think that friendly in choice [d] was a plausible answer, it is hard to

in the blanks must be roughly synonyms.Only choice [b] works here. There were so many in such a brief amount of time that only a cursory impression of places was gained. [d]'s second word fits the blank but [d] s first word ,sufficient ,isn't a rough synonym and doesn't fit.
